A black and white photograph of a railway track curving through a dense forest. The track starts in the foreground and curves towards the right, disappearing into the distance. A person is standing on the track in the distance, looking away from the camera. The forest is dense with trees and foliage, creating a sense of being deep in the woods. The lighting is soft, suggesting an overcast day or a shaded area.

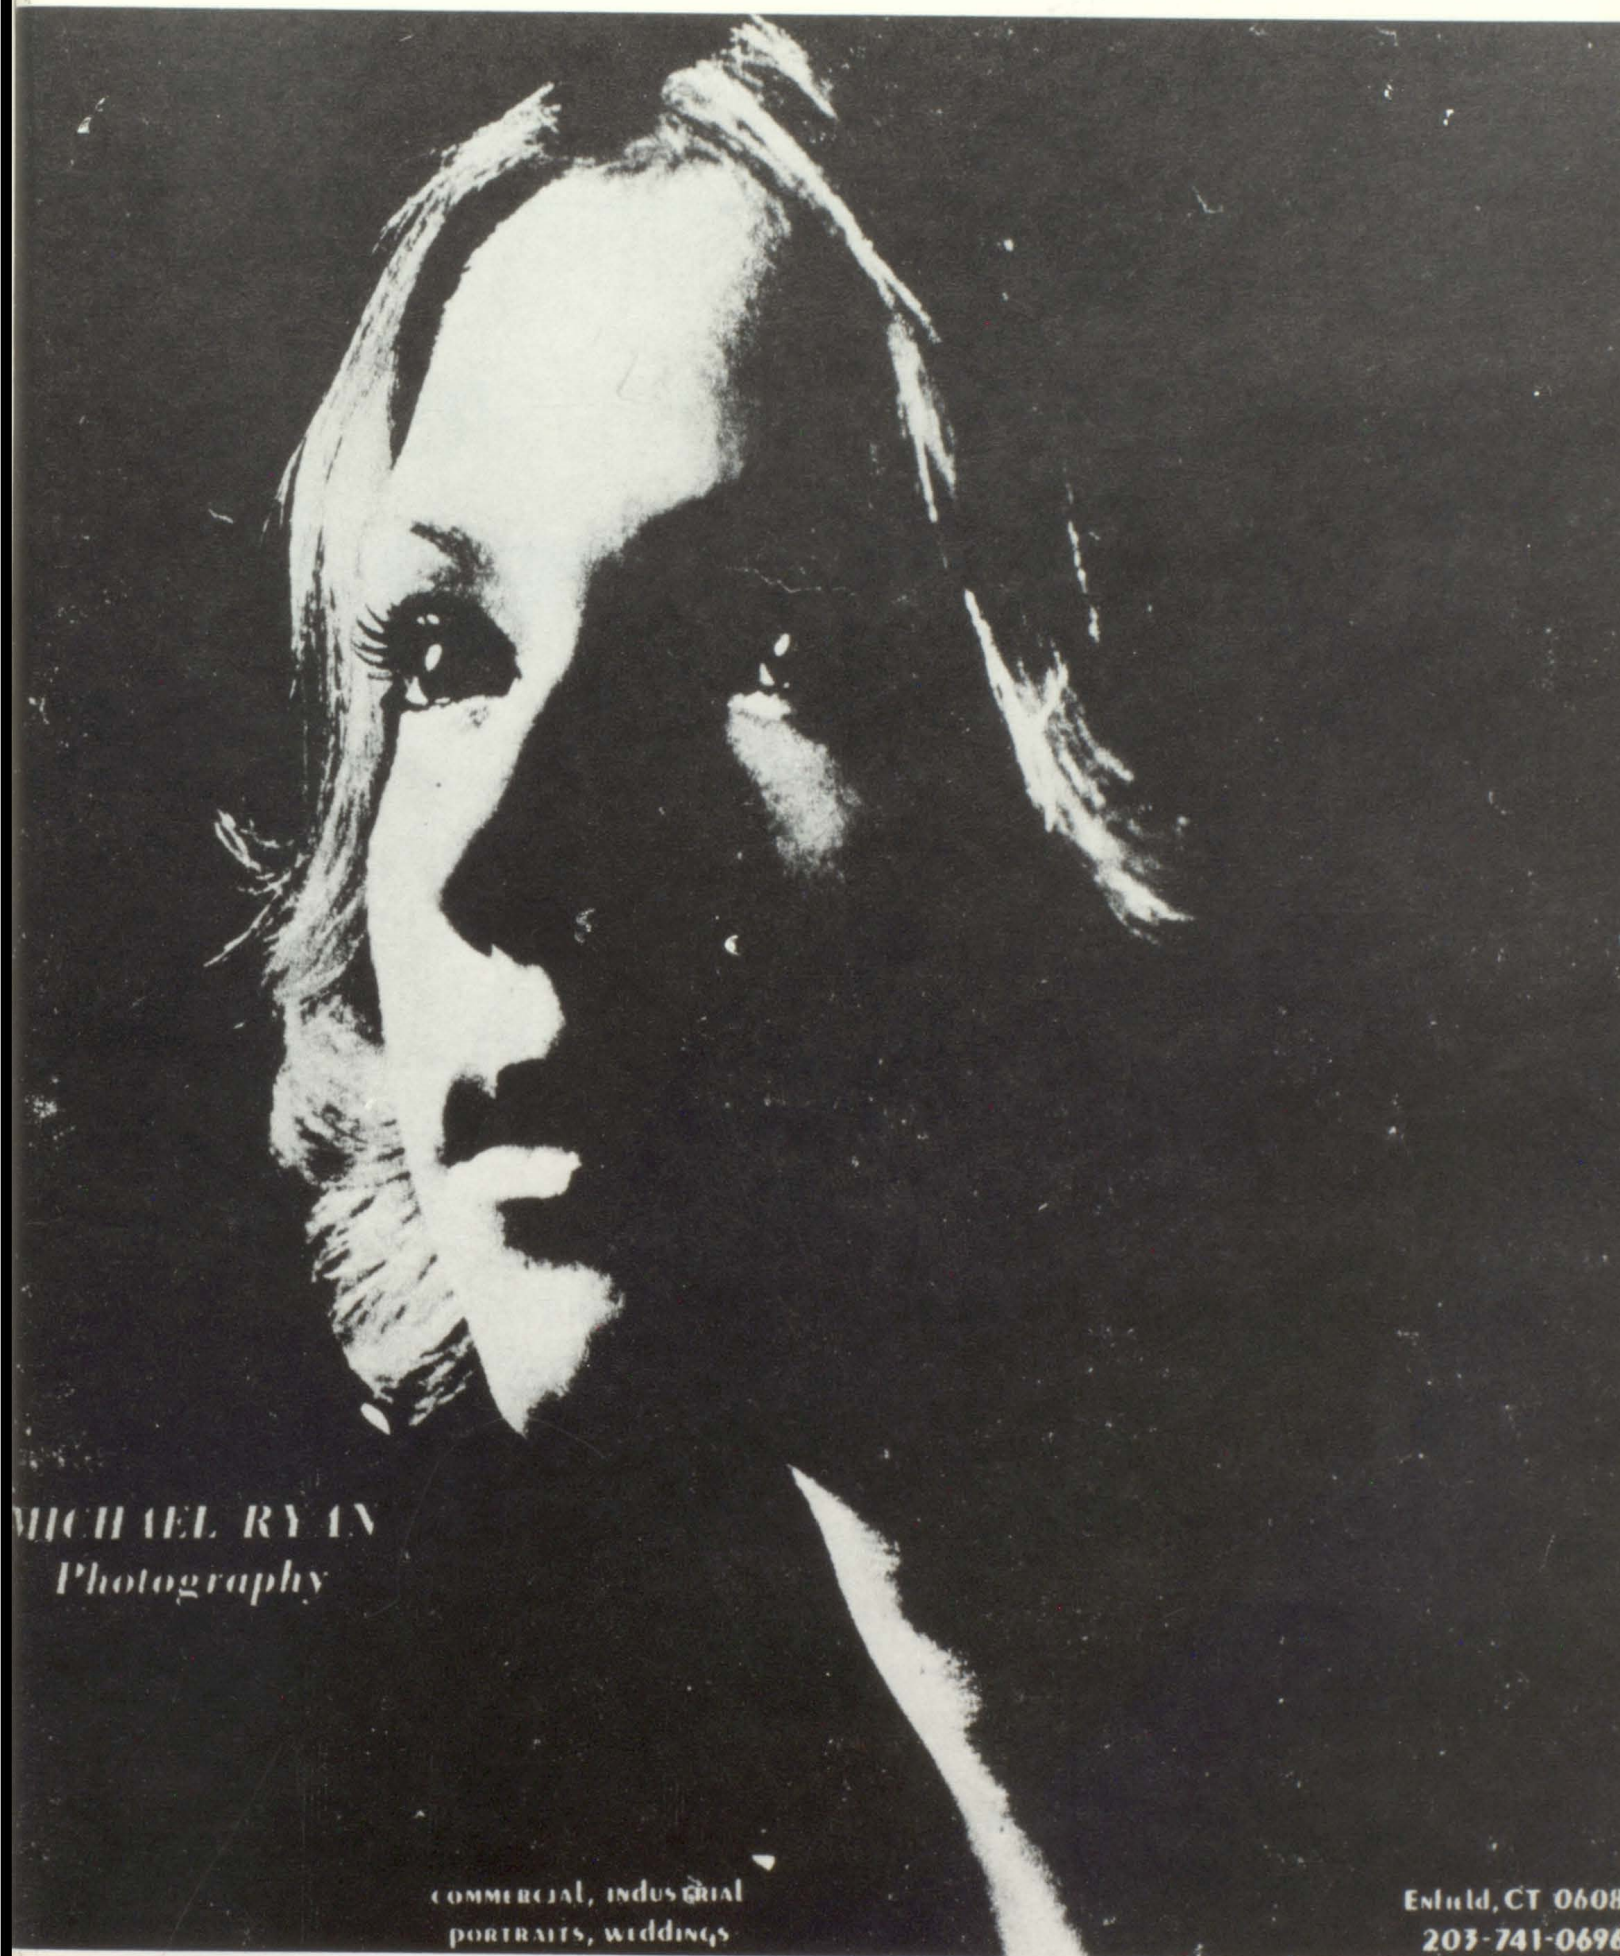

The tracks branch off . . .

What Is a Bargain?

Beware of advertisements which claim huge savings on diamonds. If a diamond is sold at a "bargain" price it is usually because it is an inferior gem. Our membership in the American Gem Society is your assurance of honest value. It costs no more and often less to buy your diamond from a reputable firm that cares about you.
